At New York yesterday money on call was steady at 1%42 per cent.

Prime mercantile paper, 31/2041/2 per cent. Sterling exchange was strong, with actual business in bankers' bills at \$4.87% @4.87% for demand and \$4.84%@4.84% for sixty days; posted rates, \$4.85@4.881/2; commercial bills, 84.831/4@4.83%.

Silver certificates were 631/2064c; bar silver. 60%c; Mexican dollars, 47%c. Bar silver at London was 27%d an ounce.

The day's market was made up of movements in special stocks, evidently under the operations of speculative cliques, who brought manipulation to bear to aid the movements. An overwhelming proportion of the total business was concentrated in less than a dozen stocks. St. Paul, Steel and Wire and Southern Pacific continued very prominent, but they were supplemented by large dealings in Rock Island and some of the Southern stocks. The first five minutes of trading were sufficient to demonstrate that very powerful support was in the market. The heavy offerings of St. Paul were freely bought and its decline was checked at 150. The same was true in Northern Pacific and in the steel stocks. The official color given to denials of the socalled St. Paul deal and the explicit assertions that it was off brought a large speculative selling of the stock, and the statement on behalf of the Steel and Wire directors, given out after the close of the market Tuesday, was a weakening influence in the steel group. When the determined and effective support at these two threatening points was observed the tone of the speculation was strengthened and the prompt advance in Rock Island and other stocks later in the day served to sustain prices in the general list. Selling to realize was going on actively under cover of the strength in active stocks and the market was highly Accounts of Banks, Bankers, irregular all day. Under the influence of | Swiss, 17c; brick, 14c; limburger, 13c. the first upward spurt in Rock Island, Corporations and Individuals which rose an extreme 3%, there were general recoveries, St. Paul and other leading stocks rising above Tuesday night. The fact that the buying of Rock Island was by

brokers identical with the support in Steel and Wire aroused some distrust of the movement, and the subsequent advances in special stocks were not notably responded to in the general list. St. Paul sold off later executor, administrator and guardian. It will take charge of all kinds of property, izing on the statement of December 1 earnings, showing the extraordinary increase of \$852,139 over December of last year. Mobile & Ohio continued to advance, rising 6% on top of Tuesday's gain of 5%. No authentic information could be secured during trading hours as to the source of this buying, but it was made the occasion by speculators for advancing the stocks of various railroads which might be benefited by securing control, including Southern Railway, Louisville, Chicago & Alton and Kansas City Southern. Late in the day the steel stocks were marked up vigorously after resisting the decline all day. The rise in Steel and Wire from the lowest reached 3%, in the preferred 2½ and in Federal Steel 2½. There were gains of 1 to 1½ by some other members of the group. They engage-

LOCAL GRAIN AND PRODUCE.

Trade a Little Off. Owing to Weather

Conditions-Prices Steady. The first snow of the season, although not a severe one, somewhat checked trade yesterday, although business men were pleased to have the ground covered a few inches, for the benefit of the growing wheat crop which now has a promising outlook. Consequently, a few days of dull trade will cause no complaint. Traveling salesan early and good spring trade. In prices, yesterday, there were no important changes. Staple groceries are very firm in price, and if changes an advance. Navy beaus are weaker. Canned so far as prices are concerned. Poultry is firm. Eggs are easy at prices quoted, and butter is weak. Flour is firm, but unchanged in price. Provisions are moving well. The local grain market is sluggish, receipts being light. ALL PRICES ARE LOWER

WHEAT LOST A HALF TO FIVE-EIGHTHS FROM MANY CAUSES.

Corn and Oats Fairly Steady at Small Declines-Heavy Receipts Are Depressing to Provisions.

CHICAGO, Jan. 30 .- In a decline of 1/20 %c in May wheat to-day indifferent cables, liberal receipts, favorable weather and other bearish considerations played a part. Corn dropped 4c, oats a shade and provisions 5@74c. There will be no session of the Board of Trade on Feb. 2 on account of the Queen's funeral.

The wheat market was a professional one throughout the session and the trade was of a scalping order, content with small deals and corresponding profits or losses. May opened 1/01/2c lower, at 763/60761/4c. under the influence of indifferent Liverpool cables, the deep fall of snow and the delayed announcement of Australian shipments aggregating 544,000 bushels last week. The market declined early to 75%:. where it held steady for a time while a few small buying orders were filled. The liberal receipts and small world's visible decrease (650,000 bushels) later caused further selling pressure, and May dropped to 75%c. Shorts covered on the decline and the market reacted to 76%c and closed 1/2 %c down, at 76@76%c. Seaboard clearances in wheat and flour were equal to 372,000 bushels. Primary receipts aggregated 442,-000 bushels, compared with 354,000 last year. Minneapolis and Duluth reported 265 cars,

Local receipts were thirty-four cars, three of contract grade. The feature in the corn trade was the almost total absence of outside business. The opening was easier on cables, a liberal country movement and the excellent weather. The wheat weakness also told against the price. There was scarcely any of the usual bull support, while commission houses had selling orders from the start. At the decline moderate covering by shorts caused a rally from the bottom, and the close was fairly steady. May sold between 39c and 38%c and closed %c lower, at 38%@

against 254 last week and 274 a year ago.

39c. Receipts were 289 cars. Oats were fairly active within a narrow range. There was some heavy selling, but the market stood up under it firmly. May sold between 25%c and 25c and closed a shade lower at 25%c. Receipts were 197

Provisions were dull. Liberal hog receipts and lower prices at the yards caused selling at the opening. Later covering by shorts caused a partial recovery, and the close was fairly steady. May pork sold between \$14.07½ and \$13.90 and closed 7½c lower, at \$14.0216; May lard between \$7.47½ and \$7.42½, closing 7½c down, at \$7.45, and May ribs between \$7.05@7.07½ and \$6.97½, with the close 5@71/2c depressed, at \$7.021/2. Juite a number of mills have been resented in the market, and some fair-sized lines ness done considerably exceeds that of the previous week, and we should estimate the volume of sales at about 3,500,000 lbs. These consist of sales at about 3,500,000 lbs. These consist largely of territories, scoured, Oregon, medium fleeces and delaine wools. Some manufacturers express themselves as satisfied with the orders which they have taken on overcoatings. Others are still running on duplicate light weights. While prices are, on the whole, in favor of the buyer, there has not been sufficient recession as yet to justify a general lowering of quotations. In fact, on some lines a pretty firm feeling prevails. This is especially noticeable on quarter-blood fleeces and delaine wools, as well as on scoured wools, and some sales have been made at full quotations. The markets in the interior are still proportionately higher than those at the seaboard, though country holders will, in some instances, sell for less money than they would have sold for a month ago. The sales for the week in Boston amounted to 3,176,000 lbs domestic and 280,000 lbs foreign, making a total of 3,456,000 lbs, against a total of 1,285,000 lbs for the previous week and a total of 4,454,000 lbs for

the previous week and a total of 4,454,000 lbs fo the corresponding week last year. The sales since Jan. 1 amount to 9,615,000 lbs, against 17,-169,600 lbs for the corresponding time last year. Butter, Cheese and Eggs.

Metals. NEW YORK, Jan. 30.-The local metal market ruled generally weak to-day. Speculation, how-ever, was dormant. Tin opened weak at 371 points decline and ruled weak all day, but not active, and closed weak, with sellers at 26@27c. The depression here was due largely to heavy arrivals, amounting to 725 tons, and a loss of £1 at London to £125 7s 6d. The copper situation, both here and abroad, was practically at a standstill. The demand continues slack, and prices remain nominally unchanged at 17c for Lake Superior and 16%c for casting and electrolytic. The close at London was quiet at £71 5s. Lead, though weak and 5s lower abroad, top £15 7s 6d, ruled dull and featureless to call, and £15 7s 6d. ruled dull and featureless to call, and prices were nominally quoted at 4.37½c, at which figure no business was reported done. Spelter, however, was weak again to-day, following advices that advances of £5 were scored at Lon don, and prices were 5 points lower at the close at 4@4.05c for spot. Domestic iron markets con-tinue inactive and without material change. English markets were firm and higher. At Glasgow 52s 9d was the closing figure, and at Mid-diesboro 46s 9d.

UNION STOCKYARDS, INDIANAPOLIS, Jan. 30.-There was another liberal supply of horses offered in the regular auction sale of Blair, Baker & Walter, there being nearly 400, against 200 a week ago and 250 a year ago. The arrivals consisted principally of chunks and heavy horses, and the quality was very much better than the average in this market. There was a splendid attendance of buyers, and with increased competition the best animals sold promptly at fully steady prices, but commoner grades were no better favored than usual, and prices were more satisfactory. High-class draft horses sold as high as \$400, and sales of chunks and heavy horses were usually from \$100 to \$150. There is an active demand for mules, and they are selling
